Dear Summiya, June 17, 2010

Thank you for telling and showing us all of the different things we saw in the museum. It was very interesting. I never knew that Nixon went to China.

I enjoyed seeing Nixon's house. The tub was so small! Going to the bathroom in a porter-potty outside. Thats not me. That's to hard! The house was very small and there was only 1 room. I cannot live with that my whole life!

I also liked the Berlin Wall with the teddy bear! That was sad that the east side of the Berlin wall they couldn't even get close to it or they would get shot! Sad. That's not fair!

I liked the helicopter it was cool. It smelled good! I still can't believe they smoked. I liked the picture they had in the helicopter.

Thank you for showing us. I really appreciate it. I hope we can go again! I learned alot.

Sincerley,
Melody
