

Appendix C

Sound Recordings Withdrawn from the John D. Ehrlichman Materials in the White House Special Files

This appendix is intended to provide researchers with a list of the sound recordings which have been withdrawn from the John D. Ehrlichman materials in the White House Special Files. Eighty-eight dictabelts and one audio cassette have been withdrawn and transferred to the audiovisual collection. The sound recordings are listed under series and folder title. The "DB" or "C" numbers listed are the file numbers which have been assigned to the sound recordings. Entries for each recorded conversation include the name of participants; the date; and, wherever possible, the time. Transcripts, prepared by Ehrlichman's office, are available for most of the conversations and are located in the appropriate folders of the file group. Those recorded conversations for which no transcript is available are so indicated in the list. In one instance a transcript is filed in a different folder from that in which the dictabelt was filed, both folders are identified. The list does not include transcripts available among the records for which sound recordings are not extant. Some parts of the recorded conversations are closed under restrictions imposed by the Presidential Recordings and Materials Preservation Act of 1974 and its implementing regulations.
